

... many thanks for the copies of my WH notes of 7/17/72 and 7/29/72
I reread them with some satisfaction. I probably have copies filed
where I did not think to look. It would appear that I was quite
right on discounting Chotiner. If I was right on Mardian (7/29)
it would appear that nobody has caught up with it yet. This whole
Caddy business has been dropped officially and was never pursued
unofficially except to the degree I have. ... By now I have gone
over all the earlier files that are within practicality. If I
have not retrieved and segregated that which is relevant it is
not now worth any more of your time or mine. I do appreciate the
time one of you has taken for this. As I went over this early
stuff I did make new file breakdowns. I hope circumstances permit
my getting back to this writing soon. I'll know then. ... The
(officially) forgotten 6/20/72 and incompletely considered 3/21/73
stuff now getting limited attention is relevant.

Thanks HW 3/16/74
