

Harold, Sullivan,

I have come to the conclusion for the sanity of my own mind, that no one pulled the trigger, in fact there was no assassination! In fact this was all concocted by alien invaders to better conceal their insidious invasion! The alien high command masquerades as proprietors of all the 7-11's in the world! Their minions flash their books and tapes at Dealey Plaza! - Hell maybe there isn't really a Dallas Texas? What do you two think? Pomer made money on his angle, How about mine?
