

Dear Cyril,

/22/90

I do know that Turner was in this country to do a White show for BBC because I was told it by some of those in Texas to whom he spoke. He may also have been working on something else, of course. I don't hear from him because I expressed my displeasure over his breaking his word on the 25th anniversary show he did. I then told him that if he was going to do another of the phony solution shows I would not be interviewed or appeared. He assured me he wasn't and he went for the crazy French connection. I do hope he doesn't use you to give credibility to that awful stuff which appears to be coming apart rather fast, and, of course, the proliferation of all these untenable "solutions" undermines all credibility and further imposes on the trust of the concerned people. Who is also deceives and misleads.

My wife and I both like Bud but we find it increasingly difficult to understand how so intelligent a man who is also a fine lawyer can manage to get deeply involved with almost any nutty assassination project any exploiter or would-be commercializer makes up. He and his people simply cannot have done any real checking of the Micky White fabrication or they'd have had nothing to do with it. It seems that if it is critical of any federal agency he and they will go for it whether or not it is true or even possible, and that is a great tragedy. If they'd used the phone book they'd have known that White was lying and if they had not been so determined to go ahead they'd have realized that the press kit they put together for him held the proof that he'd lied.

The last developments are that Geneva White with Joe West and Gary Shaw went off on their own with another phony diary and at the press conference that it was a phony was exposed. John Stockwell, having failed to persuade them to drop it appeared at the press conference and denounced the whole thing as another fake. and the MATSU exponents of greed served West with papers in a lawsuit they filed against him for taking and keeping those cables that have to be fakes, and poor fakes at that. I don't know if you saw any coverage but I've been told that the Dallas Morning News carried one tearing the whole thing apart.

I had to correct the cover on the brief and I didn't correct the extra copies I made, of which the enclosed is one. I also inclose copies of the exhibits in the case record that I used. I wish that circumstances had permitted me more time to think and revise because there are some things perhaps not as clear as they could be and some that I forgot. I hope that some of the clerks and judges read it, as I'm sure was not the case before the local court.

I don't know whether I get a chance to respond to what they file but whether or not I do I will appreciate any suggestions you may make.

If Turner sends you a cassette of what he does, assuming he still does it, I'd like to see it and to have a copy for archival purposes. I've collected a rather fat and disgusting file on the White wash.

Thanks and best wishes,

Harold

Dear Harold:

Thank you for your informative letter of September 14th.

I did not tape anything with Nigel Turner concerning the White scenario. I shall await with much interest a copy of Nigel's BBC presentation in light of your remarks.

I would be interested in reading the appeal brief in your malpractice case.

With kind regards.

Sincerely,

Cyril H. Wecht, M.D., J.D.
