Dr. Cyril Wecht, pathology Central Medical Center & Hospital 1200 Centre "ve.; Pittsburgh, PA 15219 Dear Wyril,

I finished that chapter, annotating it, before I had to lay the book aside. Whenever you can get here we can then go over it, point by point.

Meanwhile, well as you've done against that Judenrat, stay away from Posher!

He almost never responds and almost always attacks instead of responding anyway.

Snd the media lets him bet away with that.

If you drive, before leaving let me know the date and I'll ex xerox a map showing 70 how to get here from 160, or to it, or from the DC side. It is short and easy either way.

Thanks for your good wishes about my wife's broken wrist. It and she are doing rather well. The cast is a bit of a nuisance but she makes out.

She had the second cataract removed yesterday with again fantastic results! Each time the opthalmalogist corrected her lifelong as stigmatism. When he left me the recovery room, instead of having a nurse or volunteer do that, he boasted, "I've given you a new lady! She'll never need those thick glasses again."

And right now, the day after, she has been working with a tax client for an hour or so.

We are so lucky to have found him when he was new to the area.

If there are any daytime talk radio shows in your area and you can aspeak to them I can go ofter that Judenrat until about 5:30 p.m. and I'd love to. I've asked Gary Aguilar to see if he can line one up in the Day area so he, Posner, can get some pressure from his mother, and I've asked Gandolfo to try in the New York area, so Posner and Random House can feel that pressure enough to end their silence, and face it.

He knows about my book and he is for the first time without response.

I've submitted a long article to the New York Review of Books on him. Here's hoping!

It is a wonderful opportunity if we can get something started. Believe me, what

remains in Rest Nortem is only a small part of what 1 put together on him and his fraud.

Thanks and put best,

Harry.

Mr. Harold Weisberg 7627 Old Receiver Road Frederick, Maryland 21702

Dear Harold:

I hasten to respond to your letter of April 30th on my way out of town. I thank you for having taken the time to share so much information with me concerning your book and Posner. I was sorry to learn that so much had been cut out of your original manuscript. It would have been important to get as much out to the public as possible concerning the lies and misrepresentations set forth in <u>Case Closed</u>.

I shall look forward to receiving your comments concerning the JFK chapter in my book, <u>Cause of Death</u>. I do not know if it will be possible to make any corrections for the paperback edition. The editor had told me that we had to have all our revisions in by the end of January. Nevertheless, I certainly want to have the benefit of your thoughts and suggestions, and if at all possible, try to correct any important, definite, and confirmed errors in our chapter.

I hope that I can visit with you sometime this summer. Perhaps the next time I travel to D.C., I will drive rather than fly.

With best wishes.

Sincerely,

Cyril H. Wecht, M.D., J.D.

P.S. I was very sorry to learn that your wife broke her wrist. I hope that it is healing well, and that she will not have any residual functional or anatomic defect.
