Mr. Harold Weissberg,
2323 N. Nottingham,
Arlington, Virginia.

Dear Mr. Weissberg:

After our long conversation a couple of weeks ago, I started exploring the situation I outlined to you then and came up against a pretty tough string of barriers. The opportunity has since been definitely closed; I have to get my help "through channels." It looked so unpromising even a few days after you spoke to me that I gave your name to a Mr. George Brewer, who seemed to think that you were just about the answer to a problem he had. I haven't seen him since and don't know whether he got in touch with you, but I hope something happened so that you didn't find all your time wasted.

Just as I was unable to go ahead with my plan to have you help me, so also I was unable to make use of your suggestion about the convalescents at Walter Reed and Forest Glen.

I hope that in the interval since I spoke to you, you have made some happy connection either by way of Mr. Brewer or otherwise.

Sincerely,

W. L. Parker,
Director.
