

40146

Sunday, Sept. 13th.

It is understood that the Killian Trist Mills Plant is very busy at this time and cannot afford a shut down. Therefo the men were given a raise last week which was realy ahead of the promised time. The plant was working today, and it was understood that for the present and most likely till Oct. 15th there will be no labor troubles.

It was told that the threat of a strike the other day was not sanctioned by the local but was a threat made by the present officers in the Killian local, as no strike vote had been taken and it is understood that ~~none~~ has been taken up to this time. It is understood that there are only 9 men in the union and the rest are all girls. It is understood that the feeling runs high against the locals officers because there is an agreement with the company that a man may be discharged for drunkenis on the job. and the officers have protected two members that should have been fired twice for this and have held the job for a third that should have been sent up for stealing good from the company. The rest of the help can't see this sort of protection.

Respectfully

M-10
