Forstervald appeared as a guest on a radio program called, "Sunday Dialogue" featured by radio station WAVA / 1/12/59. This was a two-hour show. The first hour Fenstervald was interviewed by the narrator regarding the purpose of the National Committee to Investigate Assassinations and the second hour was answering questions telephonically from the inquiring public.

Vensicroald stated that the Warren Commission report is a "fairy story" and that it is false and one of the biggest "enow jobs" ever done. He said the Connittee's office will be located at 927 15th Street, Northwest, Washington, D. C., Jittelephone number 347-3037.

Fensterwald mentioned at present he has no staff but does have a Board of Directors which include Jin Garrison, New Orleans District Artorney, William Turner, former FBI Agent, Fred J. Cock; Paris Flarmonde, author and others. He hopes to build an investigative staff through funds obtained from private sources and donations. Thereafter, the staff will conduct necessary investigation into the assassinations of President John Fitzgerald Kennedy, Martin Luther King, and Robert F. Kennedy.

Fensterwald intends to link forces with various individuals around the country namely Jim Garrison, Harold Weisberg, JosichThompson and others to form an organization so that a large pool of information relating to the assassinations will be available.

When this information becomes available, it is Fonsterwald's infention to force, persuade or embarrass the Covernment to appoint a new Commission or for Congress to reopen the investigation concerning the assassination of President Kennedy. He contends the truth will come out.

Pensteruald briefly discussed his background as being associated with Senator Long's committee on wire tapping and had been involved in investigating the Internal Revenue Service and the Department of Justice. He was asked by the narrator if he intended to investigate the FBI. Fenstervald said he was not "doing an investigation of the Fal as such," however, will have ithe advantage of having William Turner on the Board of Directors as well as Fred J. Cook, who are knowledgeable about the activities of the FBI and other Government agencies. Penstervald mentioned Paris Flannende, whom he described as an author who recently wrote the book "Why President Kennedy Was Killed." Flannende takes the position in this book that there was a conspiracy involved and analyzes the possibilities of who were involved.

Comments made by Fenstervald regarding the investigation of President Kennedy conducted by the Warren Commission readily revealed that he was not familiar with the full facts or the information contained in the Commission's report. Further he has jaligned himself with individuals whom we know to be severe critics of the Varren Commission, the FBI, the CIA and other Government Lagencies.

He indicated another purpose he has is "to restore some sense of integrity to our Government," as an unsolved curder of a President casts doubt on the Government. Therefore, will make efforts to bring an honest investigation "by our Government" into the assassination of President Kennedy.

From comments made by Pensterwald and because of the known background of the individuals with whom he is associating, it can be anticipated this group will undoubtedly make unwarranted attacks against the FBI in the future.
