Dear Mr. Weisberg:

Attorney General Mitchell has referred your recent letters relating to the "Warren Commission" to me for consideration and reply. From those letters and previous correspondence it is plain that further correspondence between yourself and the Department of Justice on this matter will serve no useful purpose. You are, of course, welcome to communicate your views to us and they will receive due consideration.

It is unfortunate that the change in Administration has just and apparently will not make you certain that the element of position played no role in the investigation of the assassination of President Kennedy or the formulation of the guidelines for release to the public of information on the matter in Government files. In our view, the substantial correctness of the Commission's Report remains unimpugned by any recent developments. There is no reason to believe that further investigation would serve to eliminate the doubts you and others have voiced, and while we do explore possible new information which comes to our attention, we see no basis for reopening the primary investigation. We do appreciate the sincerity of your offer of assistance to us.

As to your allegation that agents of the Federal Bureau of Investigation have slandered you, it should hardly be necessary to inform you that such conduct would be in complete disregard of Departmental and Bureau policy. We have sent a copy of your letter to the Director of the Bureau for his consideration and such action as he may deem appropriate.

Director, Federal Bureau of Investigation
