Dear Mr. Weisburg,

As you probably know, the processes of the state are very slow, especially when the question of money is involved. This process has been diminished even more so by our failure to have you put your social security number on the forms that I requested you to fill out. I am very sorry about this failure on our part. I have enclosed the forms and would very much appreciate your completing them where I have indicated. Two social security numbers are needed, and if you desire, you may fill out and sign the State's loyalty oath on the reverse side of the white card. Again, I am very sorry about this inconvenience.

I would, however, like to take this opportunity to reiterate our appreciation to you for your visit and talk at the University of Maryland.

Sincerely yours,

Owen A. Basil, Jr.
