

Huch
4/9/69

Your mailing of 3/4: Jim could find no Adm. Kinney, and only one Kinney, as follows:
from 1968 Register of Commissioned and Warrant Officers of the USN & MC (NavPers 155)
Richard Board Kinney, Rear Admiral since 7/1/67 (sic), DOB 27 Aug 1918; line officer in
regular navy; qualified for command of destroyer; source of commission: Naval Academy;
graduate ~~Navy~~ National War College; holds Navy Cross. May or may not be the right man.

Your 3/6: I have nothing on "Joven America." I am not familiar with the content
or organization of the Stanford Archives, and I doubt that a phone call would help.
Eventually I might get down there to look at them.... No time now to check on James
Lawrence - Bloomfield matter.

Your 3/10: Bundy memo and AG memo on availability of NC material enclosed. Could
there be any significance to the closeness of the dates for these items to that of the
unavailable memo on the transfer of the autopsy material? I doubt it, but might page
of the AG's memo possibly be construed as a reference to such material?

Your 3/22 and 3/24 w/encl recd.... Your 3/31: Anonymous letter to Ruby with
misspelling "probley" sounds interesting; reference was incorrectly given as 200/45
do you have the correct one handy?... Both Hal and Jim saw the material you sent me
on the destruction of the Ex Sess notes; I told noone else. (The only other critics
I talk with more than very rarely are Turner and Lifton, with whom I would not discuss
your confidential material, of course.) Hal says he told noone and Jim is, I believe,
in touch with noone else. Don't quote me, but I vaguely remember that Bud may have
mentioned this matter very casually in conversation with Turner and me; there was no
discussion of it.

Your 4/5 w/encl recd.... Memo on LHO notebook - Hasty material enclosed.

Sincerely,

7
