Dear David,

Thanks for your letter of the 20th and not only for the enclosures but for the care in which you bound them inside the folder.

They represent good work!

I'm glad also to get the Urban story on the alleged movie deal.

However, I've not yet gotten from you or Gary his story on Joe West's press conference. When you have time I'd appreciate it.

Thanks to help from you and Gary I have a fairly complete file on the Ricky White matter than interests me most for archival reasons.

It seems incredible to me that any responsible movie producer or director would think of using as technical experts on an assassination project anyone who in any way supported this dastardly thing Ricky et al are up to.

The Matsu group (do you know how they took that name or what it means?) claims that the fakes in that cannister are "authentic." Do you know how they can possibly say this when the crap is encased and sealed in plastic?

Please excuse my haste. I'm deep in a pressing matter with a deadline.

Thanks for the report on Mary. I'm glad she is getting along well now and hope that Buck also is. When you are in touch with them, please give them our best wishes.

Thanks, sincerely,

Harold
