Dear Mr. Williams,

Heaty thanks for your letter of the 22nd, which didn't reach me until today. Fe've been should in. I've read the clippings (one I did not have and the others were better stories than the apers 3 get carried) and hope to get the the St. George tonight or in the a.m. heavy mail when there are six days at one shot!

I mot Ot. George in the Washington office of Oar Spiegel last summer. He said he was going to look me un but hasn't. I am not certain of his connections, but I think he was on the exile side when the Olf cut them off. As I recall it, he does have an accent.

Metter of fect, the Zgency had more than one office in N.C. I do not know how many, but I believe more than two. Garrison talked about this but nover went into it. They also had a Double-Chek office there.

Again, cany thanks.

Sincerely,

herold disberg

Dear Mr. Waislarg,

Quenclosa an article ly andrew St. George, tha prevdonym of an undiredual Casely udentified with The C.I.A. It gives a fairly accurate account of a Company operation autricle the U.S.A.

The assessination of Open F. Kommody was a Classic domestic romovel. The ambush was a tottlook example and as per page 143 of Photographic Whitework" will no doubt be studied as such. It was performed in a sage city.

The relection of New Orleans as a staging area was logical. The Company had an office there. Para-military operations had begun an apparat of Cuban Ililes and emplayees had acvieadly been created. Prominet_Citizens (Day S. Raw, William Reilis, Dr. alton Ochsner, William Monteleone) Dad Dean herrunted as sponsers de less innocently as "Contrallars". The Outcome was un-Voutable. explain thomselves. Certainly, your work us important and I'd be fascinated to read anishing you invote on The rubsect. Bost Wishes For The new year. Sunsaleally

Edward R. Williams
