Dear Ed,

Your long letter came at a time when I'm too busy with other matters to give it deep thought, as later I will.

I wrote to ask you about one <sup>comment</sup> ~~comment~~ you made.

Referring to what an unidentified source told you about the spookeries going "crazy because Sauvage and Thomas Buchanan, Joe Hoesten were publishing in Europe when Hunt was closing doors in U.S."

I presume you mean E. Howard Hunt. If so would you please provide details because I've had that belief.

By details I mean where he was <sup>b</sup>ased, what his cover was, without whom he worked in agency and in publishing and anything else you may have been told.

You refer to Mark Lane on the Hightower show. Didn't know you knew about it. However, that was my show and I arranged for Mark to be on it to plug Citizen's Dissent. He was making it up as he went and was so terrible I refused to be on the same show with him the next night, RFK having been offed between the shows. Jack Anderson was on with Mark the second show, night after RFK assassination. But how did you know about that show on that small station which went broke?

In your letter you do not say what books you want. I remember which you asked me about when you phoned so here it is.

Best wishes,
