

Dear Buddy,

4/22/80

Something new-

More than a year ago I learned of about 50 volumes of DJ (regular, not FBI) files on the JFK assassination. I requested them, did not get them, appealed, and they are being processed. Just heard.

There are as many or more Criminal Division files on the King assassination that they lied about and I've asked for and now expect to get.

Eight more volumes of Civil Rights Division King assassination records, also lied about, have been located and I'm to get them.

Something like 50 volumes of Criminal Division records on the Poor Peoples Campaign, also asked for. You may recall that Jerry McKnight expressed an interest. These are in addition to those of the FBI, asked for earlier.

The FBI is more than two years late providing the political files on King. I've renewed that appeal.

The last of the MURKIN (FBI for Murder of King) abstracts came today.

Haven't looked at them yet.

More than 2,500 pages of JFK FBI records referred to other agencies came last week. This is not all of them. CIA hasn't acted yet.

Best wishes,
