Dear Mr. Kevin:

Harold Weisberg suggested I write concerning the possibility of obtaining from you tapes, copies of tapes, historical material and documents associated with your investigations into the assassination of President John F. Kennedy, Robert F. Kennedy's murder, Watergate, and related subjects.

My interest is in compiling for posterity the documentary base for the understanding of these events and forming them into a repository on the subject here at the University where a modest beginning has been made. Material would be organized, identified properly, and made available through the several means at the disposal of the University and in accordance with the nature of the material to scholars.

I have lectured extensively on this question of the violence in the last twenty years, published a nationally circulated annotated bibliography of the books written on JFK's assassination, delivered professional papers to scholars, and am presently working on two volumes of the documentary record generated by Harold Weisberg in his Freedom of Information battles.

Dubs, replacement tapes, mailing costs, etc., could be arranged.

It is also important to me to know of others in this question of assassination who might have significant material and would greatly appreciate any help you might be able to give me in making contact with them and assisting me in approaching them.

Sincerely

David R. Wrone
