Dear Mr. Weisberg,

I recently read a "Saturday Evening Post" article that mentioned you had published "Whitewash TV" this year. I have looked in Calgary here but can't find a copy of it and wondered if I could order it from you. I have copies of your first two "Whitewash" books and several others by other authors on the J.F.K. assassination and am one of those who has always believed there was a conspiracy. I hope from the newspaper accounts that the day may still come when we will learn the full truth of that tragic event.

I am wondering if you have done any research into the Robert Kennedy assassination. I am not familiar with those who have been and in view of your extensive work in connection with the former president's death, I wonder if I could pass on the following information to you. It probably has no significance but after thinking about it these several years I'm not so sure and of course I have no background in this sort of investigative work so can not really judge.

This concerns correspondence which I had with "World Field Research" in April & May of 1968. I had answered an ad. in a magazine (I don't remember the name) which suggested one could earn money at home doing research
