June 29, 1969

Enclosed is a recent order form of Dell Books in which I can find no listing of your Whitewash books although I know Dell publishes them. Recently I tested Dell to see whether they would send me a copy of Whitewash II; after much hassling, at one point they sent me a copy of Whitewash instead, they finally came across with Whitewash II. Although I have kept copies of my correspondence with Dell, I am not sending them to you since they finally did send me the book; but I am wondering if other people have this experience in ordering from Dell. I suspect that bookstores or other individuals with less perseverance than I could be effectively kept from getting copies of the book if my experience represents Dell's policy about distribution of the Whitewashes.

Cordially
