Dear Harold -

Thanks for your letter and the advice is well taken - sorry I failed to reach you while in Washington - I called several times without success - I haven't heard too much about our mutual interest but the West Coast is working on an angle that involves Bill Liss, Medrick Johnson, John Zernack and the American Volunteer Group and the Friends of Scott Committee, also any of these people ring a bell with you and are you interested in the gory details? Best wishes

Paul
