

HUNT OIL COMPANY
DALLAS, TEXAS

PAUL M. ROTHERMEL, JR.
SECURITY OFFICER

Dear Harold
The articles I have seen. My recall is not perfect but somewhere I believe Lowery was a JBS member who was planted in CP. Then Bureau started using him - after he became hard to handle the Bureau cut him loose - Lowery made a series of speeches around Dallas - I don't know where he is now. The above may not be exactly correct and I think the story came to me from a JBS member after Lowery was surfaced -

Molina was with the DI Forum
To understand why Molina occupies such an important role in things consider this - He was one of 6 people in a CP cell - 4 were informers - FBI - I-DPS - Dallas PD and 1 for JBS - Everyone reports on everyone else - Stories get bigger and better - Each Dept that got the info from its informant probably editorially some. At least 3 of them did. The end result was when each agency checked with the other they came up with Molina - did

you know he worked at ~~some~~
Repository. Well you can see the
consequences 1+3=5 and you go on
from there. The CP in Texas is so
weak that only Wendell Adington
and John Stanford were ever completely
free of informer taint. At least 50%
of all CP members in Texas were
informants at one time. That ought
to tell you something. I can't prove
it so I can swear to it but I
do believe my sources -
\$10.00 about your book - I enclose
sent it to me - Also I think
I'm ready to publish one - Any
suggestions?

Paul

P.S. Please make yourself a
copy & return to me the Austin
Taylor - Touchstone letter
Thanks -
