

period experiments from 1914 have more rapid and in many respects more sensitive. Because most stations are not equipped to conduct this type of operation and because of the desirability of completely controlled control over this entire effort, it was determined that Division 1, which is in direct touch with NSR in procurement equipment, should not conduct the activity. The point operating activities have now advanced far enough to justify, coming from the 014 category.

4. Operational units:

(1) Personnel: PTW is under control. Contrast is a principal report, with the primary task of supplying great quantities.

a period of a year and a half. Personnel is controlled and operated by US, Personnel, in whole of the Bureau of Personnel. Rules of this Bureau reflect an excellent performance by Personnel. In September 1964,
