

1/11/69

Dear Joel Anderson,

You had the wrong address. I enclose your envelopes.

I hope you can undefistend that no author, particularly one who must perform extensive research and investigations in his writing, can rewrite what he has published in answer to inquiring letters.

Those questions I can answer I have, in writing, and cannot now take the time for. I work more than 18 hours sever days a week as it is.

Your questions about Aing would require a book, and 1 have written it but cannot now afford to publish it.

We maintein a mailing list of those who want to be notified of the sppearance of our new books and of those who want automatic shipment with bill. I also enclose a list of those already published.

Thank you for your interest. I think not alone interest is required of conscientious citizens today. I think each must also inform himself. This is the counterpart of the writers obligation, to make information available. Unfortunately, the publishers have not upheld their end.

Sincerely yours,

Harold Weisberg

mr. H. Weiburg Route 8 Freddickstown, maryland pear siz: I heard you on a radio interview Sunday nov-17. You spoke of the assassiation of Fresident John F. Frennedy. This is my second letter to you because the first letter came back for the reason of insufficient address. 1. Who in your opinion killed President John F. Kennedy " Why? 2. I'm now reading," The Rich and The Super-Rich by Ferdinand Lundberg. On page 315 the last paragraph says that 35 years ago J.P. morgan, John P. Rospellow I, and andrew W. mellon controled Wall Street or and the United States. What propertied people control the United States Moverment now?

There is a mystery behind the dealth of Dr. martin Luther Hing and malcolm X. There are rumors that these were political Willings. People are saying that the C.I.A. (the invisible government) engineered the killing. Could you express yournet on this matter? Especially emphasize who the interest group were that financed and/in

initiated the Killings.

Please note: In 1704 Speaker of the House of Commons, Mr. Robert Harley assigned mr. Daniel Defoe to be chief spy (author of Robinson Crusse works). mr. Defoe applied on a grand scale spying on the English population. This is how streat British acquired ther empire. During slavory the slave- master employed informers to appress men. During "The Great Flint Sit-Down Strike against Several motors in 1936-37," General motors (Da Pont) hired Pinkerton Detectives to spy on the strikers. Soday we read of information in the case of Jerry Rubin in Chiciga, R.A.M. back East, and during riots. after observing the demonstrations at Son Francisco Stat College - l'm positive that we live in a subtle police state! When a militant makes a speach in Son Francisco half the andience are secret service men. I ask you, siz, what is the origin of these secret service men? are they CI.A., F.B.I or city Police?

Please reply. If there is a fee

let me know.

The christing and stappy new year

Sincerely yours, Joel anderson
