

Bell - ABC

Dear Steve,

7/4/85

While my experience tells me that if the FBI Director were to rape Columbia on the courthouse steps the judges would praise his great patriotism, I'm old fashioned enough to believe otherwise and so, to try to protect FOIA and the right of the people to know what their government does (a quote from LBJ's Fourth of July speech in signing FOIA in 1966), I persist, this time with my head on the block for I'm again refusing to pay a crooked judgement, obtained by fraud and perjury, as I believe I prove beyond question with new evidence in the enclosed ~~XXXX~~ Motion under the court's Rule 60B.

The new evidence I use is rather exceptional in that in my case it was sworn not to exist by the very same FBI SA supervisor who at the same time disclosed it to a friend of mine.

I'm sending this to you not in the expectation that you could use it but for the file of the man ABC has keeping an eye on government restraints on the availability of information.

If he recalls what I sent earlier, the evil precedent that jeopardized lawyers has been overturned. I'm fighting what jeopardizes FOIA plaintiffs and I think, as precedent, other plaintiffs.

When I mail this I'll have mailed copies to the court and the FBI. I have until Bastille Day to file, although in form I have until then to cough up the \$\$\$ the FBI is trying to gyp me out of to establish this crooked precedent.

One of the attachments reports that the FBI prepared dossiers on a number of very prominent people. Among those still alive is Senator Specter. I have not decided whether to send him a copy, which I believe he'd not read anyway.

I do intend to send a copy to DJ's Office of Professional Responsibility, even though my prior experiences with it tells me that its real function is applying the whitewash.

There does not appear to be much likelihood of any attention to what I'll file but I believe that attention would cause a great public good. If you can think of anyone who might get interested, I'd appreciate it if you let me know so I can mail him a copy.

Thanks and best wishes,

H. C. Bell
