Dear Congressman Weiss,

This relates to your recent and excellent letter to your colleagues re the pending amending of FOIA to exempt the CIA.

At the very least this unseen rush should be slowed down and then followed by meaningful public hearings at which the CIA's record of deliberately violating FOIA and deceiving and misleading the courts might be aired fully.

The possible police state aspects resulting from this pending litigation have not, to the best of my knowledge, been considered or discussed.

I think it is something to worry about.

Thanks and best wishes,
