The theme of this book endewors to substantiate a theory that President KENNEDY was shot by a Secret Service Agent sitting directly in front of President KENNEDY in the motorcade, and that the plot involved a handful of high officials and Secret Service Agents.

Dallas indices contain no reference to FRED NEWCOMB or PERRY ADAMS.

Dallas airtel and LHM dated 12/24/70 in captioned case, contain information concerning one DENNIS ROY and FRED NECOMB. DENNIS ROY is believed identical to the person sending SA GEMBERLING the book and FRED NECOMB is believed identical to the author FRED NEWCOMB.

It should be noted that the "acknowledgments" set forth on one of the enclosed pages, gratefully acknowledges the invaluable help, inspirational support, and friendship received from, among others, "several Agents of the Federal Bureau of Investigation."

Because of the ridiculous theory elaborated on in this book, it has not been completely and thoroughly read and the Bureau was not previously advised of the receipt of same by SA GEMBERLING. It is felt, however, the Bureau should be aware of its existence and of its possible publication, and for this reason, the foregoing information is being furnished the Bureau.
