Dear Jerry,

Can't respond on the card.

There was such a transcript, it is a farce because it was limited to their interpretation of the ^{what} ~~and~~ the Commission counsel gave the so-called experts, it was not published, I got my copy along with the executive session transcripts and I do not now have access to it because it is in the basement, with most of my files and neither my wife nor I can now use stairs. The only Hood students who have helped me or worked here have graduated so I cannot ask them to get it. And you can get it free from the National Archives. We all get the first 100 pages free. You address the national Archives, JFK Liaison, Wash., DC 20408. Steve Tilley seems to be in charge. The stuff has all be tranferred to the new and modern building on the Univ. Md. Campus.

I've forgotten whether those men were psychologists or shrinks but there was no testimony and they were led mostly into preconceived conclusions that are untenable. Any body making any use of it now is as much a fool as they were to undertake any such mission. That is probably why it was kept secret for do long.

Soffy I've not been able to get copies of my current NEVER AGAIN! for friends or even the media. Six requests ignored/ even when I offered to pay for them! It was first out in late April, I do not know of a ^{single} ~~single~~ review copy being sent and I've not had a ^{word} ~~word~~ of complaint from any of these I refer to in it. You should see how I refer to some of them! It is a solid work, Jerry and don't get involved in more nonsense that may seem attractive from the profundity of ignorance of the established fact.

I have had to lay work on my Mailer book aside with over 100,000 words on paper but I'll be returning to it soon, I hope. I've two chapters on his despicable abuse of Marina Oswald retyped if you know anyone who could be interested. I've also got some 40 retyped pages of a lengthy article on my relationw with the most conservative of the Warren Commission members, Russell of Georgia and on his and Senaror Cooper's documented refusal to agree to the single-bullet theory. and in how their disagreement was memory-holed, how they were conned, too. Both died refusing to agree with that absolute basis of that Report. Russell had a high opinion of My work. I did not know Cooper, did not speak to him, but his refusal to agree is thoroughly documented, too.

Best,

Hardy

Names of the three criminal (or prison) psychiatrists who testified before Warren C. investigators (or the Commissioners themselves?) on or about July 14, 1964:

Transcripts of the testimony can be read in:

H. (Testimony may have been behind closed doors and not published until well after the 26 volumes were printed.)

Thanks!
