Dear Jerry,

I've been to the archives. Multiply what I told you by ten. It is a can of worms. I'm doing an article on it. I'm trying Europe and have a good lead, at least introduction here. It will have to be fast. My major hope is for Europe. I'll finish it tomorrow. It is already planned out (the driving time is my thinking time) and one major magazine wants to see (phone to US correspondent).

If I do not sell it, maybe I'll give it to you for the issue after the coming one.

Can I do anything for you for the coming one?

My recent work has been very fruitful. I think I can interest a major paper in a narrow and possibly sensational angle. Again, I've been on the phone.

Excuse haste. Just got home, want to do this piece, and a local reporter will soon be here on an old date.

Keep me posted as you can. This thing may come apart too soon. That is a great hazard, for the people must understand it, else the danger is great.

Too hurriedly,

Harold
