

Rt. 8, Frederick, Md. 21701

4/25/69

Dear Emory

Little as you and he think he told you, it may be that Fisher told you quite a bit, including what he did not intend. I will explain it to you, asking that you please say not a word to anyone, for I will want to use it and follow it down, to the degree I can. I hope you can plague him a bit more. The thing he evaded is your excellent question, "Do you know of any anatomical or skeletal explanation for this phenomena?" He does, of course: the scapula is the most floating bone in the body. It shifts about two inches upward when the body is prone, and is it even in any other position for an autopsy? His error is in this language in his second paragraph: "...and from the studies which we personally did on cadaver material in a medical Department of anatomy..." There is no reference to any such study in the whole demand report and such a study is contradictory to the declared purposes of convoking the panel but quite consistent with the misuse to which the report was put. If you reply, why not ask him why, if the evidence was as clear as the government says it was, he had to make personal studies on cadaver material and, since you may be writing about it, what kind a . for what purpose or purposes. If he fails to answer, I'd like to use the question. Would you object? Or to your name being used? I prefer giving credit, but it sometimes is no favor to the credited. And you could ask him again if there might not be an anatomical or skeletal explanation of the seeming inconsistencies. Let him not answer that, too, though in the form in which you have sent it to me it is enough. I have that in POST MORTEM III anyway, but the letters in the appendix would illustrate guilty knowledge and evasion.

If the government does not have him under pressure - and it may not- the requirements of his own reputation most certainly do. When you see what I have already done to end with him in PM III you will understand. That book needs no more, but I will be adding to it.

On the ED, I have no objection to military people knowing of your interest in learning what those letters could represent in Russian. Particularly if it told me the answer.

On Odum, I do not think it necessary to check for the right years. Your friend, who was very accomodating, didn't. I have forgotten which, but it was after 1963 and before 1968. He lived in Irving. And I suspect AL, CO and OR as phone exchanges are New York. I know all three are used there.

Very helpful. Many thanks.

Sincerely,

Harold Weisberg

CONFIDENTIAL

FROM: Dallas, Texas

DATE: 1 April 1969

REF: GC-32

SUBJ: Post Office Box 19106, Telephone Prefix Letters
AL, CO, OR and RI and Name ODUM

Post Office Box 19106 is located in the Medical Center Branch Post Office, 2507 Knight Street, zone 75219, telephone 521-4000. The party in charge refused to divulge any information regarding the renter or renters of Box 19106 and whether or not an individual named ODUM did or had rented said box. The party in charge at this branch stated that records are maintained of the renters but should the renter move, any records containing the change of address would have been destroyed after a period of two years. The old postmaster was "fired" after the passage of the new Civil Service regulations by President Nixon and a new one has not yet been appointed. This branch is now under the supervision of a Mr. Glen Wrigge, Officer in Charge, Dallas General Post Office.

Representative(s) of the telephone company in Dallas stated that the prefix letters AL, CO and OR, have never been used in the Dallas area and are not in use at the present time. However, the prefix RI(verside) is presently assigned to the downtown business district and was in use in 1963. A search of the Dallas telephone directories for the years 1960, 1963 and 1968 reveal no listing for an individual named Lee Odum or Odom.

The foregoing was prepared from and is a summary of the information contained in a letter from a correspondent in Dallas, Texas.
