Dear Gary,

I'm glad to get the tape of your interview of Boswell and of Artwohl's 1992 statement that Perry admitted to him, personally, in 1986 what Perry had said in ^{earlier} this 11/22/95 press conference and to me as I report in PI.

If you remember from just reading NA! what Perry said at that press conference had no ifs or buts from the press coverage of it. It is my recollection that because he had been unequivocal that he asked Clark to handle that press conference for him the next day so he 'd not be either contradicting himself or what he had been told by Times the protocol would say. If you do not have the transcript of that press conference I have it and will copy it for you. If you have a retrieval system available to you you may want to get what the NYTimes, the Wash Post and AP had then. I may not be able to find it easily but I have the Times and the Post and think I quote them in NA!

I felt sorry for Perry. I liked him and believe he was put in an impossible position. I handled it as easily as I could in PI. He was not only unequivocal with me, he added details. He did make a hasty but good examination of that would before he cut it. I've heard from Artwohl only once since Case Open, as I now recall.

My impression is that he has yet to find the goat at which he is unwilling to ^{strain} stretch. He can find some kind of an excuse for almost anything wrong in the case.

I'm glad to have the tape for archival purpose and glad that you identified it as your interview of Boswell but for the content I'll wait for the transcript that I'll be glad to have. I do not plan any more writing in that area but I think anything he says can be of interest one way or the other. In a different country or in this country at a different time he would be facing perjury charges- and should.

There is a limit, outside of government runs by Hitler, Stalin and the like for what can be justified by claiming pressure.

Thanks and best,

Herold
