Dear Gary,

Thanks for your yesterday's good wishes.

I know ~~where~~ where the CIA/mafia plot records you want are but I cannot recall where I have these on the sending of the tape to Dallas. On that if he can ^{find} it and if he has the time Jim Lesar has a copy of the DJ appeal I filed on the withholding of the contents of the paraphrase and of the text.

You can be easily misled about Mexico City. If you believe what Newman wrote you have been.

For the most part the CIA people there were crazy and along with then Ambassador Tom Mann came close to starting World War III with their political insanities.

If you want to talk about that I'll take the time. If you intend any writing about ^{it} I suggest that ^{if} you talk you tape it because there is much information and misinformation along with great incompleteness.

But believe me, Castro did not use Duran's sex to either keep Lechuga in line or on Oswald and was not through that, as Newman says several times, "implicated" in the JFK assassination.

On this Mark Riebling's Wedge is also totally undependable. I've written about it at some length.

A bit more on Newman before I return to work. He was here once. I invited him. I told him the correct number the Commission had been given about Oswald, not that S172 or 179 that ^Hudkins made up. I told him where he could find it because my copy had been stolen for Lifton. He phoned me the first working day in some excitement. He had gotten easily what I referred him to. It is not in his book. That number is 110669. I showed him the proof that Oswald had crypto clearance and was about to copy it ^{to} ~~for~~ him when he told me not to bother, he'd get his own copy. That also is not in his book. Whether or not 110669 is a CIA number, it is the CIA's kind of numbering.

Best,

Harold
