

Dear Mark.

9/25/75

They've renumbered the routes and we are now on 12.

You don't really know what indexing is. You should see the one my wife is into:

But what you did was of help to Jim and will become part of a permanent index I am gradually assembling. I've had occasional help and when possible used it to first code and then consolidate the cards to the indexes to all the books. It will become a valuable research tool in time.

as

I appreciate the offer of help ~~and~~ would Jim. He is overloaded one way, I another, and you can't really help with our immediate and urgent needs. He is behind on filing the appeal, partly from harrassment and a new suit for evidence by CBS, whose purposes are commercial, not evidentiary. I'm trying to complete an overdue book.

I'd thought you'd be going back to school before now.

Right now when I need both help and the time to do some myself is in physical work, getting ready for the cold weather. (I rather enjoy it and it is good for me.)

You are the wrong sex for one of Jim's immediate needs - a baby-sitter.

Until I get this immediate project off my back I won't be able to stop and think of the help I can use, but thanks. If you come across anything you think might interest me I'd welcome a copy, of course.

Thanks and best,

3015 Mission Sq. Dr.

Dear Harold,

I will be quitting my job in a few weeks in order to spend some time working on the JFK assassination and other related areas. I would be pleased to help you and Jim during my "vacation", providing you go easy on the indexes.

In the meanwhile, enclosed is a \$10 check for the copy of Frame - Np which I left with the last time I was in Fredericks. When I visit you next, ~~time~~ I will own up for the telephone call. Looking forward to hearing from you.

Mark Allen

P.S. If Ford doesn't stay out of Mo. Calif. he'll drive the assassination freaks nuts.
