

Dear Mark,

11/5/80

I've not yet tried steps so I'm not risking getting flown and not up with only Lil here . You say you'll be satisfied with the serial number of the FBI record in which De Loach boasted of putting the hat on the CIA. It is 62-109060-5075. However, there is much more that is required for completeness and perspective. I happened to have a dupe of some of the stuff filed under the paper that asked for it months ago and then made no use of it. If you have any trouble getting a copy we can copy this remote-generation copy. There also is a fair amount of related Morgan material, mostly Not Recorded copies. And I believe I went over other public domain info to give the paper background but that the carbon is not very good. . . In any event, if you want more can't come I'll volunteer Lil's services for making copies, without any deadline because some has been at the machine for three days now. But it might be better if you decide what you want to do and with whom.

Jim told me about the new FOI A request, suggested a ~~jit~~ joint one, to which I agreed. Either way is OK with me. I've already suggested that if you want the LEGAT's records you'll have to ask for more because they'll claim destruction. I suggested to jim that DL, NO and HQ at the least be included for those copies

I've not asked GSA or CIA for their HSCA records, I have asked the FBI for everything it made available and I'm not in a position to push on that one. Be glad to join anyone who wants to take it over and get the benefit of the time that has passed. Haven't asked EO of Presy and suggest that you include the libraries of that of the past, Carter now and in haste because they'll be packing it all up.

Medically nothing new except incredible bills!

Hope Kevin's trip to DL is going well. Best,

Dear Harold,

Hope your convalescence is smoothly progressing. It ~~is~~ must be reassuring to know you have such a fine doctor supervising your treatment, even if his subordinates aren't very keen listeners.

Tomorrow I plan to give Jim a draft of our joint request for records of the LEGAT in Mexico City. I would like him to file it on his legal stationery for whatever advantage that might provide.

I have just requested that GSA send me "all agency records" on the HSCA investigation. Although I won't get the

Congressional records, this should include items like HSCA access to classification documents as well as their dealings with the physical evidence. Have you asked for the FBI and CIA records relating to the HSCA?

I also plan to ask the Executive office of the President for any records they might have.

If you ~~feel~~ feel up to it, could you check the FBI vs. CIA file for the DeLoach memo concerning LBJ's belief in a CIA conspiracy? Just the serial # will suffice, as I can get ^{it} from the FBI downtown.

Kevin will be in Dallas from 2-3 more weeks.

Best wishes,
Mark
