Dear Gary,

Yes, I'll be getting a new ribbon this morning! I've used three in a month, I've been typing that much and the ~~ribbons~~ ribbons now are that poor, <sup>hereabouts</sup> ~~hereabouts~~, anyway.

More than a year ago I agreed for my books to be condensed in a single volume.

I've just gotten proofs to read.

And I'm being reminded of much I'd forgotten, too! It is about one of these that I enclosed a proof of pages 154-5. On 155 Alvea got pictures of the rifle as found long, relatively speaking, before Stidebaker and Day.

There is no way of knowing whether those were in the outtakes but if they exist I surely would like to be able to use the clearest in HOAX!

The rough draft of which, by the way, is done.

I no longer know anyone at WFAA-TV. I assumed that you do. Would you please ask the right person if they have this and if they do if I can get prints and use them?

If they still have them, as you might know from your own work, and if they agree, please get the way credit should be given so I can do that properly.

Either once again the truth can't come from Livingstone even by accident or his book is getting no attention. It is 10 days since he told someone I know that his book "is on the trucks," or being delivered.

I've not heard a word.

He then also volunteered what I'd assumed, that the outside libel lawyer advised C & G that some of what he wrote about me had to go. He complained about that to this friend he did not know is a friend.

Thanks and best to allk.

I heard that Lundberg made some juicy admissions in being deposed. If any of that is available I can still add it to NEVER AGAIN! Like Breo's credentials being those of a sports riter!

Dear Mr. Alyea,

It is both a surprise and a disappointment that you have not responded to my letter of about six weeks ago or made a print of the picture I requested available.

As you know, I asked for that picture for a book and as you know, there are no theories in my books. I want to present an actuality of an important detail in an important part of our history and you are exercising the right to suppress that.

I'm disappointed that you take this position, and I'm surprised that anyone who considers himself a journalist would.

I'm sorely tempted to include a footnote on the substitute I'll be forced to use along with the description given me of the one you can supply and the statement that you refused to do that.

This attitude toward our history comes with poor grace, I think, from one who had so little regard for it he did nothing to prevent the destruction of most of the was it five reels of film you and you alone were able to take at the scene of the crime, and as a result all of that was just thrown away.

Regretfully,

  
Harold Weisberg

I do not think you have forgotten, but if you have, my interest is in a picture showing the rifle as it was found.
