

Dear Mr. Gibbons,

44-38861-6012 is Serial 6012 in the main FBIHQ Murkin file.

Morris Davis was a phony informer of the Birmingham office. The FBI knew he was feeding it bad information, his improvements on street information that was from dubious to inaccurate to begin with. It therefore wished him off on the House assassins committee to boobytrap it of at least waste its time.

I have a small file on him in the basement to which I do not now have safe access.

It is "Liberto's name that is redacted from that record.

I got these and many other records in a FOIA lawsuit, CA 75-1996.

Sincerely,

Harold Weisberg
