Since I had not gotten any response to my letter of Feb. 14, I wrote on March 26, with an enclosed postcard. I got it back yesterday with the appropriate option checked for "status of letter of 4/12": "received; have decided not to follow it up." Also the following note:

"Thanks, we took a good look at it -- it's a maelstrom & we don't have the manpower to get into it as we should like to do - Les Whitten"

Can't win them all. I hope they don't pass the information on to any of their official friends.
