Dear Les,

I was careless with the envelope. And the reason has removed from my mind any certainty about what is in it. I think it has to do with Dr. Luis Alvarez.

Something has been wrong with me lately, the same or more with it. A local doctor wanted to hospitalize me 18 days ago but could not because I am a Group Health patient and they would not. Of course I want no unnecessary hospitalizations but I fear the local was right. My legs and thighs are swelling even though I'm losing weight.

I see the local man in the morning. If I am not hospitalized before then I have an appointment with a really top man this coming Monday.

The uneasiness has not been helping me keep things straight.

And during this time I've had a very long affidavit to draft for an FOIA case with an openly hostile and prejudiced judge, Pratt. It has taken me to this evening to read and correct. No time for even reorganization. Has to be filed by the end of the week. I have hopes for it, if not for immediately victory in this case, a JFK one. My wife is retyping it now.

If you have any Jaworski interests and if I have not put it this way there is no better choice for one to head a committee investigating laundering, clandestine money. Jaworski did it for the CIA, with other lawyers, with M.D. Anderson Fund and some of his own cash. Whombody else would use this I gave it to Art Kevin, an old friend at KMPC radion, Los Angeles. Art was abroad when Jaworski was just appointed. I've refreshed his mind, told him about Cong. Harold Sawyer raising some questions, told him he'd find that the funnymoney Jaworski handled in Mexico for a client was the turned wheel, the client was Anderson, Clayton - Anderson Fund Anderson. Art will air some in L.A. He phoned me tonight to tell me he'd had a long and encouraging chat with Sawyer's staffer, probably A.A. or L.A.

Jaworski castrated the Texac Court of Inquiry after the JFK assasination, my original interest in him. I have a file on this.

What Marks let some pages out on is the file I had of which we spoke. There is much more in it. I won't have time to read it but my friend Mike has and will help you. Long ago I wrote you about your associate who wrote the Condor bookx saying I had the material for another. This is it. Somehow I'll be paying for the coming 5,000 pages - my FOIA request covers it all - and you'll be welcome to it when I get it. I'm just getting it to give to the university where all my stuff will go. Not just a few pages, like Marks did - all of it. What may not be clear is that I'm giving Mike a copy of everything because he has knowledge and can make sense of what others may not. There is a Frederick News reporter names Rollie Atkinson who has been interested since the (local) Olson story broke. More went on at Petrick that is talked about. But I can't find time to do what I know better than others so I've not been able to follow it. Closely, that is. My suggestion for the future on this is that you pick out one of your people to go over the financial records when I get them. They'll be purged, in some cases properly, but there will be a hell of a story in them. You could have had a scopp on this, as you now realize. I paid for those records long ago and I've had them since 6/10. Not the story accounts of "just released."

Best wishes,
