For two reasons I'd liko a coyy of the CIA IG's report on Ceastro plots in today's colum. One is to study it inwediately and the other is for archival deposit.

Sorry you've not been able to take a look at what will be the ceppssit. Maybe you can zet away fron it all one day and take a peek.

Since Novermber the lecture burcau has gotton pe Pive appoarances. Inctoad of putting the not aside for possible medical contingencies - of which I hope I do not learn of one today then I have an expert consultation at Gcorgetown - I've engagod a local college student part-time.
