Dear Les,

The copies of your correspondence with the Department of Justice are very helpful. I have discussed them briefly with Jim. He has not yet read them but he feels as I do. Our thanks.

I will be drafting an affidavit in which they are relevant. I am without doubt that they will prove official false swearing in my C.A.75-1996 and that they prove falsifications in my unmet requests for the files on me.

Now I'm sorry that I was concerned about the possibility of intruding into your privacy. I was too hasty in going over those files. I remember one letter of which I should have asked for a copy but I did not ~~know~~ know this until I read those for which I did ask. The Secret Service denied having any records on you and D.J. told you it had Secret Service records on you. The Secret Service has lied in the same way to me.

If all your people are not too busy I would appreciate it if you could have one of them go over just your correspondence with the CIA, Secret Service and defense-military components and make copies for me. This can be of value to me and I think to the meaning and viability of the Acts. I have already started on a new course, of seeking to do something about this wretched business of official lying, as my enclosed letter shows. The judge knew this swine was lying because his clerk gave him the copies of our interrogatories. The judge was then going to give them still another month to respond when they have not responded in two months. Jim got him to cut it down to the 29th, a week less but still about four weeks. And my initial request was of May, 1966! The first suit was of 1970. This one is on remand since July 7, with a mandate for speed. Under a 10-day law.

I sure wish I could find a dedicated lawyer to help and work with overworked and unpaid Jim! We then would be able to do something about these official felons I regard as our own kind of Nazis.

Whether or not you can find time for this further search I do appreciate the helpfulness of the letters I do have. I'll be using them in C.A. 75-1996, my suit for the suppressed King assassination evidence. While it has brought enormous ~~back~~ pressure down on the DJ, they are still able to stonewall and not comply. This request dates to April 15 of last year in the form in which it is in court and in the records I've finally located to 3/69 in my original requests that remain ~~unmet~~ unmet.

The whores and self-seekers are already on my back on this. I'll be doing all the work, with Jim, and these scoundrels will get it free and will misuse it. So, I may well give some of what I have and they apparently do not to you if you would use it. I have proof that the FBI and Department lawyers knew that the allegations against Ray in Tennessee were false from the FBI labs own tests. Think about this. If you might use it I'll be in town again on the 8th and will bring it with me so you can make copies of what you might want. I am alas loaded with these kinds of stories and am not in a position to sell them.

Best,
