

Emergency ——— Weisberger  
If Senator Kennedy was "dazed"  
at Chappaquiddick, this may  
mean he was given L.S.D. drug  
as was the agent Olson of CIA.  
Therefore, Kennedy probably did  
not drive the car onto Dyke  
Bridge. I maintain it was  
either the CIA or Nixon's "dirty  
tricks" group which killed Mary

Jo Kopechne. Kennedy did not know that the girl drowned, and was probably taken away in another car. Please investigate now! Also, Mary Jo Kopechne was probably being blackmailed or was a hired agent — either way, she was a victim of the CIA or the Nixon "dirty tricks." "
