Dear David,

The fourth graf of your 3/22/78 excerpts from interview with Epstein begins "... (I trust that someone will pass this on to Harold Weisberg.)" Good idea. Too bad that having gotten the idea you were unwilling to spend \$36 yourself. If for more than a month after your notes you or anyone else had done this it might have done some good in the FOIA case that then was before a federal district judge. He has again bedded down the the CIA and for the moment we can't get that into the record. However, we may be able to use it on appeal and there will be another shot because I have another series of FOIA requests that, absent compliance, will be in court. So I look forward to the dub of the tape you say you arr getting from WOUR-FK. And anything else relevant.

I knew of the taped interview from Paul Bech, whose fine work was very helpful in other informative projects about Epstein. I will also have other uses for the tape.

It also is unfortunate that you people did not respond when I wrote and asked about JFK materials that could be of use in the new spectro/MAA case. After the record in that case closed at the district level (which generally means closed, period) I blundered into relevant materials.

It is not possible for me to wage all these FOIA battles and still read every record. You people went over many records and I presume made some notes. While I have no reason to believe that with all there is in those records you were sensitive to what could be of use in these FOIA cases I do hope you will give this some thought. These cases are not over and there will be no re of them.

You may have come across the record reflecting that the FBI had the 1/22/64 executive session transcript contemporaneously. If your net es show this I'd appreciate the citation. Related to this, if you saw it, is the record on which Hoover added a note characterizing Gerald Ford as a toad. Relevant in the same case is anything about the 5/19 or 6/25 transcripts. I recall nothing from the press. In the earliest records anything relating to lab tests. For other uses, anything relating to critics.

On p.3 you say that EJE named Angleton's assistants. Which ones, by name?

There is an interesting correlation between Epstein's abandonment of his book and trip to Europe and this case. His trip was for the duration of the time this case would be before the district court, which had the desire of the appeals court to perfect the record before it. So Maybe EJE will return sooner now, unless he does not care about promoting the book.

Bob, Jeff and I discussed other matters, including the House assassins committee. Before long it will be necessary to face your Frankenstein. I urge keeping me informed.

Sincerely,,

Dear Harold,

Bob Katz and Jeff Goldberg told me about their recent talk with you and your interest in my material on Epstein. I have enclosed a six-page summary of the points covered in the interview, and a copy of my Boston Phoenix review of Legend. Also, since I still have some access to the recording facilities at WBUR-FM, Boston University, I will try to make a dub of the taped portions of my Epstein interview.

If there is anything else that one of us can do to help you nail Epstein, I trust you'll let us know. He's got to return from Europe at some time. Good luck with your suit.

Best wishes.

Sincerely,

David Williams
