CONSPIRACY TO REVEAL THE TRUTH?

Now that the Supreme Court has refused Clay Shaw's suit, and it appears that the New Orleans trial might begin early in the New Year, we find ourselves wondering at the amazing coincidence of this trial with those of James Earl Ray and Sirhan Sirhan.

President Kennedy, to refresh your memory, was murdered five years ago, and Martin Luther King and Robert Kennedy were cut down in April and June of this year. And yet through one ruse after the other Shaw's attorneys, with the indispensable assistance of the Federal Courts, have managed to delay his trial from the time he was indicted (see the chronology of Garrison's investigation in this Newsletter) until now. Ray's and Sirhan's trials, too, have been delayed just the right amount of time. Since Ray's capture and arrest were right at the time of Robert Kennedy's death-- another interesting coincidence-- one might have expected both trials to begin in late summer. But somehow they both managed to get set for November, after election day, and then they were recently delayed again because of the sudden emergence in each case of a new defense lawyer, who naturally needed additional time to "acquaint himself with the facts of the case".

When last heard from, Jim Garrison appeared convinced that the three assassinations were related to each other as part of an overall conspiracy. From where we sit, we don't know whether that's the case or not, but it seems likely that there has been an attempt to cover up, or at least delay, the truth in all cases. Now we see that all three trials are set to begin shortly after Johnson leaves office, and we also hear (see below) that a Congressional committee is conducting a secret investigation of its own.

Is it possible that the Establishment is now involved in a conspiracy to reveal the truth?

PRESS RELEASE, DECEMBER 9, 1968 (FROM THE DISTRICT ATTORNEY, PARISH OF ORLEANS)

The District Attorney's Office today announced the removal of William Boxley from the investigative staff. Boxley was fired after evidence recently developed by the District Attorney's staff indicated current activity by him as an operative of the Central Intelligence Agency. Boxley's initial service with the C.I.A. was in Washington, D.C., where he served for years as an active agent for what was then termed the Department of Covert Activity.

As this office has repeatedly indicated, President Kennedy was assassinated because he was ending the Cold War, and the Cold War is the major source of power for the warfare complex which influences Washington today. In the few months prior to his murder, for example, he reduced the American troops in Viet Nam from 15,000 down to 14,000. Now there are 537,000. He also made clear that he was going to "break the C.I.A. up into 10,000 pieces".

The reason that New Orleans has jurisdiction over some parts of this national tragedy is that a large part of the preparation for the assassination took place in New Orleans. Although the basic origin of planning was likely Washington, in view of the indications of extensive government involvement, New Orleans was used for many parts of the operation. The warfare apparatus of the federal government made a serious mistake in using New Orleans for this federal project. Federal Officials and federal projects do not have a great deal of influence-- to use an understatement --in the City of New Orleans. We will continue to press against those individuals who participated in the assassination of John Kennedy in every case where their activity took place in New Orleans, and all the power in Washington will not stop us in any way.

Federal intelligence efforts to interfere in the investigation into the assassination of President John F. Kennedy have been occurring since the beginning of the inquiry. The work of this office in bringing out the truth about the assassination-- and about the federal government's concealment of the facts from the American people-- will continue in spite of these obstructions.

INTERNAL REVENUE SERVICE HARASSES GARRISON

It seems that the U.S. government is pulling no stops in its campaign to discredit Jim Garrison. The New Orleans Times-Picayune reported October 25 that the IRS is investigating Garrison's 1965-66 income tax records. Garrison asserted that this investigation was an attempt to link him to the Louisiana Loan and Thrift Corp., in which Garrison was accused of owning \$23,000 worth of stock. The now defunct firm has been implicated in shady business practices. Garrison stated he does not own "one dollar" of the stock. He said the government had sent the IRS to New Orleans with the hope of finding something to discredit him before the up-coming election for District Attorney this spring. He further stated he used the short form to pay his taxes in 1965-66 and that it was therefor impossible to claim deductions. Garrison then mentioned attempts to connect him with an investigation by the Grand Jury in Nashville to alleged payoffs to obtain the release from prison of Jimmy Hoffa.

The New Orleans District Attorney said the government is acting out of desperation: "They have a serious problem. We have caught them faking an assassination. It isn't even close. They can't possibly withstand the evidence we have. We have not asked for a continuance of one day. President Johnson has hidden evidence in the case, the Chief Justice of the U.S. Supreme Court and leaders in Congress have cooperated in perpetrating the fraud, and I've pointed it out. We've stumbled across the way John F. Kennedy was really killed. They're in desperate condition. The federal government got caught in the biggest lie in history. It never occurred to them that a state would investigate the assassination. It doesn't matter what they try to do to me. We know how Kennedy was killed, and why he was killed, and we know the federal government covered it up."

SHAW TO STAND TRIAL

As we hinted on page one, the United States Supreme Court on December 9 affirmed the decision of the Federal District Court for Eastern Louisiana, thus declining to block prosecution by the New Orleans District Attorney of Clay L. Shaw, charged on March 1, 1967, with conspiracy to assassinate President Kennedy. This unsigned order thereby removed yet another legal barrier to trial.

Assistant DA James Alcock commented on hearing the decision, "We are happy and gratified at the ruling of the United States Supreme Court, but it was not really a surprise since the law was on our side all along. Three federal judges found probable cause and so did the grand jury, so we are not surprised by today's ruling."

Shortly thereafter, District Attorney Garrison set January 21 as the trial date. "The moment of truth has arrived in this case," he told a news conference. "Even if I'm killed the Clay Shaw case will go to trial."

A spokesman for the Orleans Parish Criminal District Court stated that Shaw's attorneys could still ask for a continuance to delay the case's start in January if they could convince the court that they had a legal reason for the delay.

EFFORTS TO OBTAIN DIARY FROM FLORIDA ARE FUTILE (Reprinted from Times-Picayune, 10/24)

Efforts of the DA's office to obtain from a Florida state official a diary having a bearing on the Kennedy assassination probe have been futile, Assistant DA James L. Alcock said Wednesday. Last month the DA's office subpoenaed a diary which assertedly refers to a man who mentioned in April (seven months before the assassination) the possibility of Kennedy's being killed with a high-powered rifle from a building. The subpoena directed Florida Assistant Attorney General Seymour Gelber to deliver the work to the DA's office by Oct. 8. But Gelber failed to comply; and in a statement this week he said, "I refused to cooperate with Mr. Garrison because of the fact that he revealed the name of an informant. I feel that, by making the diary available, I have no assurance that this wouldn't happen again."....

Alcock voiced surprise at Gelber's statement. "Our office didn't reveal anything that wasn't already generally known," he said, "Somerset's (the agent) activities were a matter of public knowledge." He added that, though chances of obtaining the diary from Gelber are remote, "we have another source that is promising." The source was not revealed.

FORGIVE MY GRIEF, VOL. 1 AVAILABLE

Whether you're well-versed in the intricacies of the JFK assassination or a comparative neophyte, you stand to benefit by reading and owning a copy of Penn Jones important classic Forgive My Grief (vol. 1), "a critical review of the Warren Commission report on the assassination of President John F. Kennedy." The AIC stands to benefit also, since a major portion from the proceeds of book sales will be donated to the committee to keep the Newsletter presses rolling.

Since 1945 the publisher and editor of the Midlothian (Texas) Mirror, Jones has spent hundreds of hours in reading and personal investigation since the assassination. The Texas Observer has stated, "The assassination is a mystery; it may be the great American mystery. Penn Jones is one of those who cannot forget about it, perhaps he will solve it, or help solve it; perhaps it can never be solved. Whatever, we who cannot forget about it owe him our thanks for his brave and tireless work."

With remarkable generosity, Penn Jones, Jr., has contributed 100 copies of his book to make this offer possible. We offer the volume to you for \$2.00, representing a reduction by 1/3 of the price of the book obtained elsewhere. Send name, plus address and \$2.00 to AIC, 4718 Saratoga Avenue, San Diego, California, 92107. We will mail you the volume at once.

CORRUPT ALLIANCE

"Whatever one's conclusions concerning the substantive issues, namely, whether Lee Harvey Oswald was the assassin, and whether or not he alone or in conspiracy with others murdered President Kennedy, one miserable conclusion seems unavoidable: that there was scarcely a civic profession- the military, the medical, the police, the legal, the juridical- that was not involved in suppressing or distorting the truth, and which did not bow obsequiously to power. And I am far from sure that this was always motivated by a concern for the national welfare. The more that the respectable professions are transformed from independent vocations into bureaucratic and federally sponsored dependencies, the more corruptible they will be in the future. Those who think that professional associations and universities will immunize the professions from the pressures and temptations of power have simply not understood the revelations about the CIA penetration into these very associations and universities. For these show that they are willing and eager parties to their own corruption in the name of a well-financed patriotic devotion."

Gouldner, Max Weber Research Professor of Social Theory at Washington University, St. Louis. Thanks to Jean-Guy Vaillancourt for bringing it to our attention.)

"COMMITTEE TO INVESTIGATE ASSASSINATIONS" FORMED

Following a recent three day round-table discussion in New Orleans, a Committee To Investigate Assassinations has been formed, with temporary headquarters in Arlington, Virginia, a nation-wide membership, and an impressive list of prospective directors, including Fred Cook, Archbishop Cushing, Bernard Fensterwald, Jim Garrison, Senator Eugene McCarthy, Vincent Salandria, William Turner, Edward Bennett Williams and others.

Fensterwald summarizes the groups goals as follows: "A number of assassination students, "buffs", experts or what have you, from all parts of the country, have decided to band together in a formal organization in an attempt to increase our chances of solving both the general and specific assassination problems. It is our hope in taking this action that we might (1) improve our means of exchanging information; (2) obtain financing for additional investigative work; (3) pool our strength vis-a-vis the Federal Government, particularly, the National Archives; and (4) provide our members a modicum of physical protection by 'going public'..We believe that if most of the responsible persons in the field will join together and work closely together, we will maximize our chances of success."

Mr. Fensterwald is currently Chief Counsel, U.S. Senate Subcommittee on Administrative Practice and Procedure. He is a graduate of Harvard College and Harvard Law School, and has done work at the School of Advanced International Studies, as well as Cambridge University. In past years, he has served in the State Department, as foreign policy adviser to the late Senator Estes Kefauver, as administrative assistant to the late Senator Thomas Hennings of Missouri, and finally as chief counsel and staff director of two additional Senate subcommittees.

The Assassination Inquiry Committee plans to work closely with this group. We encourage all those interested to send for information to:

(See the article that follows on page 5. By juxtaposition, we do not necessarily imply a connection between Mr. Fensterwald (whose interest in the assassination and whose Senate credentials speak for themselves) and the sub rosa Congressional investigation now in process. But we wonder.)

NEW JFK PROBE (reprinted from the Washington, D.C., Examiner, concerned with news on Capitol Hill, and published by Washington financial tycoon, O. Roy Chalk.)
November 21, 1968

Five years after the assassination of President John F. Kennedy in Dallas and three years after the publication of the Warren Commission report, there are rumblings on Capitol Hill of a possible re-opening of the investigation into JFK's death.

Investigators of at least one Congressional subcommittee have been spending the major portion of their time interviewing persons who might have additional leads on the case. The Warren Commission...found that the shooting was the work of one man, Lee Harvey Oswald. Many assassination buffs, however, have conceded that a conspiracy may have been behind the murder. A Capitol Hill source said the Congressional subcommittee began looking into the assassination "as more or less a hobby. But it became a fulltime job when they began noticing further discrepancies in the Warren Report and other published and unpublished documents." Subcommittee members have indicated that if it is not possible to continue the investigation under Congressional auspices, they will continue on their own.

A spokesman said the advent of a new Administration might enable further investigation into the case without fear of contradicting the Warren Report. "This is not to say that the present administration has hampered any investigation; merely it is pointing out that an administration totally unconnected with the assassination might not be so emotionally involved in re-opening old wounds," he added.

The subcommittee's investigation would probably focus on such questions as: "Was there a conspiracy to kill President Kennedy?", "How many shots were fired and from which direction?", "Was Oswald the only assassin?" It would seek disclosure of now-private evidence, such as autopsy photos. The subcommittee, which has found some Congressmen sympathetic with a re-opening of the case, said it is interested in investigating "many types of conspiracy theories."

FORWARD TO "WRITING THE TRUTH: FIVE DIFFICULTIES" BY BERTOLT BRECHT, GERMANY, 1934

Nowadays, anyone who wishes to combat lies and ignorance and to write the truth must overcome at least five difficulties. He must have the courage to write the truth when truth is everywhere opposed; the keenness to recognize it, although it is everywhere concealed; the skill to manipulate it as a weapon; the judgment to select those in whose hands it will be effective; and the cunning to spread the truth among such persons. These are formidable problems for writers living under facism, but they exist also for those writers who have fled or been exiled; they exist even for writers working in countries where civil liberty prevails.

THE ISSUE

The advent of December marks six months in the existence of the Assassination Inquiry Committee. We are growing every month, and we thank all of you for your help. Not only for financial support but for furthering our basic cause-- to keep the issue of John Kennedy's unsolved assassination alive. That's why we formed the AIC and that's why we will continue to print our Newsletters as often as we feel necessary.

From our inception in San Diego last June we have reached hundreds of people throughout the United States interested in this cause. We've received innumerable letters of praise and constructive criticism, and we're encouraged. We feel that sooner or later Jim Garrison will bring Clay Shaw to trial and, by proving the existence of an assassination conspiracy, he will expose the Warren Report as a tragic whitewash forced onto the American public to protect the CIA and maintain domestic tranquility.

Domestic tranquility may be essential for our country's progress, but when deception and fraud are used to keep the peace, then it's time for the people of this country to say "we've had enough!" If the government can't clean its own house and re-organize

the CIA with more controls, then who can?

By speaking out this way, we don't intend to destroy the very government which gives us the right to print these words. But our government has concealed the facts surrounding the destruction of what might have been a new era for man in this world—the era of JFK. We must fight this secrecy with the tools our government has given us, to prevent this very thing from happening against the tools of free speech and a free press. If the outcome involves shaking public trust in government, then so be it. To let this issue die would be to condone further attempts by the government to make a monkey of democracy and due process of law.

We ask you to keep the issue alive. Talk about it with friends, suggest reading material to them, and give us their address for the Newsletter. Time is a great healer, and time is on the side of the federal establishment. They hope we'll cool off and go home. We must resist!

CLOSING NOTE

Driven by uneasiness, we near the end of our journey across five thousand words, from Brecht, through Gouldner, to Garrison, and all the while the realization that things ain't quite right in Babylon recurs. Hence the exhortations to change.

Anyway, a few reminders and announcements before we close:

1). The AIC is proud to announce that it has at last compiled and printed the most complete Kennedy assassination bibliography available anywhere. It's free, and requests are now being honored.

2). The Assassination Inquiry Workshop needs your support. Attend these weekly sessions on Tuesday nights at 8 PM in Aztec Center, Conference Room C, San Diego State College.

3). Back issues of the Newsletter are available in limited supply, except for number 1 which is out of print.

4). Blue Door Books (3823 5th Avenue, San Diego; phone 298-8601) carries the most complete assortment of relevant literature in town. Patronize the Blue Door.

5). The AIC Newsletter is supported entirely by voluntary contributions. Chip in now, if able, assuming you haven't already done so.

Best wishes for the holidays from us all!
