Dear Jacqueline,

Ted Gabdolfo tells me that you have a list of those who've asked for videotapes of the show and that I am not on it because I did not ask to be. I'm pretty sure I did, verbally, and that I wrote asking Stan for one.

I also asked for anything else you do not have to keep confidential that you can let me have not for personal reasons but for archival purposes.

Everything I have is going to local Hood College, still almost entirely a women's college and a very good one. Albeit still small.

I've been collecting anything I can on the commemoration of the 25th anniversary, a separate file for later study.

Hood offers a very popular course on the politics of assassination - by no means a whodunit. Their students use my files for honors papers, etc., and some have turned out some fine papers.

Of course if there is any new information or leads you turned up that you can share, I'd appreciate that. You never know that can surface that can fit with information of the past.

Thanks and best wishes,

Harold Weisberg
