Dear Mr. Kahn,

Sorry - don't feel up to redoing this.

Please feel free to do whatever you'd like to do.

I've marked a few places in the enclosed documents that I refer to.

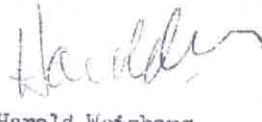

I don't think you should be in the position ^{of} ~~to~~ having to take my work for what they say and mean.

This is why I include copies.

Like everyone else, Newsday is welcome to copies of any of the many records I have obtained under FOIA or by other means.

If the climate changes enough for there to be interest in what has been unreported and is significant, we are about an hour from your Washington office unless road conditions slow traffic down.

Sincerely,

Harold Weisberg
