JFK ←

Twenty-five years later, a new book argues Oswald was actually out to get John Connally

→ Connally

conspiracy

What's your theory?

Was Lee Harvey Oswald's real target

Texas Governor John Connally and not the President?

Was the mob involved? On this 25th anniversary

of the Kennedy assassination, TIME examines conflicting theories of what really happened in Dallas.

One source: Exclusive excerpts from a new book by James Reston, Jr. The evidence: compelling accounts of an act that still scars collective memory.

While many are content to let the matter remain unsolved, TIME continues looking for clues. Probing and challenging, TIME gets readers involved in the news. Our theory is advertising works harder in that kind of environment.
