

Confidential until after 11/22/93

Bob Vinson, 713/585-7711, Houston, independent TV producer, music and entertainment, has been given access to Joe West's papers. West died from complications after open-heart surgery. He had been trying to identify the people ~~wh~~ to whom I called attention in WWII from enlargements of sections of the Altgens picture. Vinson was interested ~~at~~ in getting access to the original. I told him how, from Wife World photos, and its address. We chatted for a while. ~~a~~ He says he has about 90% of an expose show in the can. Bob Clark is in with him. West had identified the two men in that Dal*Tex building window, and they have been interviewed. He says he has a complete confession from one of the shooters. If true, that is something! I cautioned that there ~~there~~ have been phony confessions. I cited the so-called tramps who "confessed" in Dallas in 11/91.

Vinson also said that they have a rifle that was used in the shooting.

West was a private investigator, as he said a legal investigator. He was pretty wild here on his mafia stuff and wilder ~~than~~ wilder elsewhere.

This is an only copy.
