Inside the JFK Assassination Files

You saw the movie, now see for yourself what the government wasn't telling us.

Why was the Warren Commission really formed? And how did J. Edgar Hoover manipulate it? Where did the FBI investigation succeed and where did it go wrong? What was Oswald's relationship with the Soviets? What was the CIA trying to hide? Why has the Mafia conspiracy theory hung on all these years? What was the two-Oswald theory all about?

Using the government's recently opened files, Washington Post reporters Walter Pincus and George Lardner take a whole new look at the assassination and the government's reaction to it. Their three-part report begins Sunday.
