

Dear Steve,

11/16/96

I envy you that visit to the JFK library and that time with Powers!

He has to be an exceptional person to have meant as much as he did to JFK and for JFK to have wanted him around as much as he did and when he did.

If you think he'd like it I'll send him Whitewash.

Or if you think he'd like it and you'd like to do it, I'll replade your copy.

I've never made any approach to any of the Kennedys with one possible exception. That was when I took a copy of Whitewash II to Senator REK's office. I asked nothing of anyone and the coolness with which I was kept at the door led me to leave and never return.

Sarg Shriver knew me. I got his Peace Corps it first good publicity with my project that was promptly dubbed "Ceese for Peace." Got international page-one attention. Shriver wanted me to go to work for him but with the farm I could not.

While I have no knowledge of the family attitude I am inclined to believe that it is not restricted to hurt over the assassinations. They may have some concern for those still alive after what happened to those two.

Remember, as with Wakenth, this is rushed and rough.

We were glad to hear from you!

Hope we see you soon.

Best from us both,
