Kennedy family asked to produce President's brain

From Our Own Correspondent Washington, Aug 27

The controversy over the assassinution of President Kennedy. which has never completely died down, was given fresh impetus today. A pathologist asserted that the President's brain and tissue slides from his wounds, had been withheld from the national verbiase by his fearity. withheld from the archives by his family.

Dr Cyrit Wecht claimed that unarswered questions about the assassination would remain unmanswered questions about the assassination would remain unresolved so long as these objects were not available for examination. A spokesman for the Kenmedy family claimed that all evidence requested by the Justice
Department had been placed in the archives and that Dr Wecht had resorted to "offensive"
probing.

Dr Wecht said in an interview

family, to allow a panel of experts to study it.

The records of the Warren Commission on the assassination show only that the brain was "removed and preserved for further study". After the sutopsy various medical items were transferred to Mrs Evelyn Lincoln, the President's secretary. The national archives said the material had then been passed on to the late Senator Robert Kennedy.

There was some disagreement on the substance of Dr Weeht's allegations. Mr Harold Weisberg, another critic of the official version of the assassination, today called
