DEPARTMENT OF PATHOLOGY AND ONCOLOGY

November 22, 1969

Harold Weisberg, Esq.,  
Route 8  
Frederick, Maryland

Dear Harold:

At long last I have gotten a partial first draft brief out of my Topeka lawyer who is the former partner of the judge who will hear the case. It concerns only part of the government's rebuttal and the additional items I want to request are not considered. Enclosed are:

1. My original petition
2. Defendants' motion to dismiss, or in the alternative, for summary judgement.
3. Memorandum in support of defendants' motion to dismiss, or in the alternative for summary judgement.
4. My first draft of brief of reply

Should greatly appreciate if you could dissect the latter item and give me your pregnant comments soon as possible. I have also sent a copy to Fensterwald.

Harold, please let me have all four of the documents back. When the final brief is composed I will send them all back to you with the completed item.

The FBI report I asked you to identify is CE 2003 on page 262 or volume 24.

Harold you may recall I told you that Fisher and the expert panel had requested to examine the brain. I wrote to Fisher and asked permission to quote him. He asked me to not quote him. Owing to my own peculiar relationship with him I should like to ask that you not do so. Of course, if you can develop this piece of data from some other source I should like for you to do so. However, please do not associate my name with it. Of course you realize I will have to live with him for some time to come in a quasi-professional relationship. I had invited him to visit us and give a lecture to our students but he declined and I am sure it is in part to my interest in the autopsy.

Shall look forward to hearing from you.

Sincerely,
