

8/1/99

To: AARC

From: Informant (JS), Fincke notes, etc.

AARC:

In light of JFK, Jr.'s death, more data.

Additional name, accessory type, suspect and collaborator: Herbert Wilson, archives librarian. Worked at Archives I. Assisted Joan E. Schilling (DOD) at Archives I. (D. C.) Wilson, (Archives) was Army Officer, Afro-American, worked on "Matthew Brady Project." a possible code name for: JFK theft project, etc. Left the Archives and went immediately to a position at Pathology Institute, Walter Reed. Worked closely with Joan E. Schilling at Archives, gathering data, etc. Wilson is now retired, living in North Carolina, with wife. He could obviously access materials, then transmit them to Joan Schilling, etc. At Archives I, approx. 1964-1974. Then, DOD.

Add Wilson name to accessories: Joan E. Schilling (lower echelon)
Ken Vrtacnik
John Garvin
Herb Wilson

Others involved: J. Blumberg (higher echelon)
R. Karnai
P. Fincke
J. Halsman
O. Rodbell
R. Sexton
J. Ey
R. Lawton
L. Record

Recent addition: M. Micozzi (new accessory)

Possible others involved: Unknown (to be determined)

Inquiry: Was Dr. P. Fincke on a "green card," as a foreign exchange military doctor (forensic) in 1963? Was he both a Swiss national and an American citizen? Rumor? Truth? Can someone verify this?

Observation: If in error, why no complaint yet from DOD to the Archivist at AR II? Huh? Silence is profound since 1992 FOIA. Threats via phone, still exist. Fewer.

Anomaly: Note that Karnai and Vrtacnik's roles would have gone undetected, except for the FOIA and the AARC and the informant's help. They did not exist, etc., were almost written out of history, photos changed, X-rays as composites, all very neo-Stalin and disturbing. We rejoice in the FOIA of 1991-1992!

Special note: Military medicine always seeks to defraud by use of tampering, theft, lies, fraud, deceit, in order to win all litigation against the Government, USA. It is no surprise at all. They must win at all costs. Hence: the biggest FRAUD of the twentieth century in the JFK Assassination.

Commendations: Weisberg, Fetzer, Mantik, Morningstar, et al, etc. Greatest American Heroes.

Final Anomaly: The issue of the black-and-white floor tiles in the second "clean" autopsy of JFK has been mentioned recently (Custer, et al).

II

Anomaly: Floor tiles, etc. The floor tiles are a DOD style. This style is seen in the old Walter Reed Hospital (Eisenhower Building), at Walter Reed, D. C. However, they may have also existed in the autopsy suites at the old AMM (Army Medical Museum) on the Mall (now Hirshhorn Museum). Need old archival photos of the floors in AMM to verify and check. Do not recall such floors at AFIP, the Pathology Institute. AMM was torn down 10/65.

Final observation: May eternal wisdom guide the men on the trail of the accessories and assassins.

Cordially,
