

PM Insert on 124 in second full graph up vice deletion of ref to app:

Of it, what is here most relevant comes from a January 23, 1964 memo to Rankin from Specter and Francis W.H. Adams (who soon quit the Commission). At that early date, it is titled, "REVISED OUTLINE OF SUBJECT MATTER OF PHASE I".

HR: I spent most of an hour finding the copy of the appendix of PM and still haven't found the outline of the report I cite or the covering Specter/adams memo. Would you please prove this latter only so I can have proof of this insertion?

*This reference is correct*
